Fentimans

Organsko zrnasta baza, mlevena kininska kora kao i list limunske trave iz Azije daju botanički pripremljenu vodu za ovaj tonik, zahvaljujući prirodnoj fermentaciji biljaka i limunske trave.

It has an organic grain base, which is then flavored with lemongrass from Asia and quinine bark. Clean and refreshing on the palate. Made in a traditional way called "botanical brewing" – a process that remained the same since 1905.

Naziv potiče od nadmorske visine na kojoj se kinin ručno bere u Peruu. Čista izvorska voda sa Anda pruža mu finije mehuriće. Začinjen ruzmarinom, timijanom, voćnim akcentom crvene pomorandže.

Takes its name from the altitude where that key component to all tonics is harvested – quinine, on the Peruvian Inca Trail. Clean and fresh spring water from the Andes provides fewer bubbles. It is flavored with rosemary, thyme and fruity accent of the red-orange.

They use the same lemongrass distillate that already found its way into the gin. It's light bitterness, as well as the aromas of lemon and grapefruit, transform into a tingling finish. You will also taste subtle rosemary nuances.
